Data Cleanup

REVIEW	ANNOTATIONS 1	HISTORY

Meets Specifications

Student,

I think you've done a perfect job with Data Cleanup. It's very clear that you have a good understanding of the basics. Keep improving and keep learning. U

Business and Data Understanding

✓ **The section is written clearly and is concise. The section is written in less than 250 words.**

✓ **All following questions have been answered:**

1. **What decisions need to be made?**
2. **What data is needed to inform those decisions?**

- This is indeed the main business decision to be made.
- This data should be good enough for part 1 of the analysis.

Building the Training Set

✓ **The averages for each column is correct in the training set**

Awesome: Well done! All the sum & averages are perfectly correct!

✓ **Outliers have been analyzed for each field in the training set.**

The outliers are accurately identified.

The decision to keep, remove, or impute each outlier is well justified.

After pointing out all the possible outlier cities only one city should be decided upon to remove.

Awesome: Good work justifying all the outliers and the anomaly to impute.
